

Fall Vetri Community Partnership Internship

Vetri Community Partnership's Internship Program is designed to provide experience within the realms of community nutrition, non-profit program management, and direct, hands-on community engagement. Internships are offered on a seasonal basis (fall, spring, and summer) and can be for credit if applicable. The goals of the internship are matched to the needs of VCP's programming and the intern. Each intern will have the opportunity to work on a final project encompassing their experience during their time with us.

Intern Role

The role of a fall VCP intern will involve directly working with our **EAT360** and **Vetri Cooking Lab** programs. Fall is when the majority of our school-based programming is kick-started, so interns will mainly be engaging with our EAT360 in-school programming. Additionally, interns will be providing direct, hands-on support to our VCL program.

EAT360

- Provide direct support to EAT360 in the Classroom
- Communication & Social Media tasks
- Administrative tasks
- Evaluation data entry

VCL

- Provide direct support to our VCL Educators at 1-2 sites
- Equipment inventory and organization tasks
- Recipe retesting
- Data entry

Requirements

- Interest in Nutrition, Food Sciences, Public Health, Education, Culinary Arts, and/or Youth & Community Advocacy.
- Completion of three required clearances (*PATCH, Child Abuse History Record Check, & FBI Fingerprints*).
- Ability to work independently, within groups, and with youth in school settings.
- Detail-oriented
- Great communication skills

Schedule

Schedules are determined by the Intern, Intern Mentor, and Intern Supervisor based on availability, as well as, internship and program needs.

Intern Reports To:

All interns will be assigned a Mentor and a Supervisor. The Mentor will provide ongoing support and feedback regarding set goals, the final project, and their progress. The Supervisor will provide support directly associated with program involvement.
