NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

Vetri Foundation for Children dba: Vetri Community Partnership (the Organization) is a Pennsylvania nonprofit organization which provides healthy eating initiatives in underserved schools and communities. It was founded in 2008 by Chef Marc Vetri and restaurateur Jeff Benjamin to empower children and families to lead healthy lives through fresh food, hands-on experiences, and education.

Poor eating habits are often passed down from generation to generation, particularly in lowincome communities, and Vetri Community Partnership's mission is to break this cycle. Many children live on diets high in sugar and simple carbohydrates, the ingredients found in so many processed convenience foods. These foods are easy, cheap, and addictive. Fewer than 20% of adolescents aged 12 to 18 eat the recommended five or more servings of fruits and vegetables daily.

The result of poor nutrition and unhealthy eating habits?

- One out of three children in our country is overweight or obese.
- Overweight children are more likely to become overweight adults and to suffer from high cholesterol, high blood pressure, and Type 2 diabetes.
- Obesity-related diseases that stem from a diet of nonnutritious foods diabetes, heart disease, and other health problems cost Americans more than \$150 billion per year.

We know that good nutrition has a direct link to proper physical growth and development for kids. And it's essential to their ability to learn as well: the more fast-food students report eating, the lower their rate of academic improvement.

At Vetri Community Partnership, we are chefs, restaurant industry transplants, educators, and food lovers who understand that healthy food is better received when it's served in a delicious and dignified way. Our programs aren't prescriptive; they're experiential. When kids connect with real, whole food in the cafeteria, in the classroom, or in the kitchen and learn how affordable cooking healthy meals can be, they are inspired to make better decisions about their own health, influence their families, and become a voice for healthier choices in their communities.

Nature of Operations (Continued)

Our unique solution:

- Eatiquette Transforms the traditional cafeteria into an environment where children gather around round tables, pass plates of fresh, from-scratch food to one another, and experience positive social interaction.
- Vetri Cooking Lab An out-of-school-time program that combines cooking, nutrition education, and STEAM (science, technology, engineering, arts, and math) core concepts to train a generation of educated food consumers.
- My Daughter's Kitchen In partnership with The Philadelphia Inquirer, this eightweek after-school cooking program is volunteer taught and takes students from groceries in the bag to a family-style dinner on the table. Articles written by Maureen Fitzgerald appear in the paper weekly throughout the semester.
- Mobile Teaching Kitchen This vehicle brings the culinary classroom to the curbside in the communities that we serve. Children and families have the opportunity to get hands-on preparing a recipe and get instruction on cooking healthy meals at home.

Our programs expose youth to:

- Fresh food Eatiquette school lunches are made from scratch using fresh ingredients. Students eat family style to promote pro-social behavior and a healthy relationship with food. We introduce students to whole ingredients giving school chefs the opportunity to talk about where they come from and how they're grown.
- Hands-on experiences We give students responsibility and encourage them to take ownership of our programs. In Eatiquette, table captains help set the table and serve food to their peers. Our culinary programs - such as My Daughter's Kitchen and Vetri Cooking Lab - involve students in every aspect of cooking, giving them a chance to learn life skills and practice kitchen safety and food preparation techniques. Our Mobile Teaching Kitchen partners with food-access organizations and provides hands-on lessons about how to create healthy, tasty meals from the food that is available in each neighborhood.
- Education All of our programs promote healthy habits and emphasize the importance of nutritious food. We teach children what real food is, where they can get it, and how they can cook it for themselves on a budget.

The Organization's main sources of revenue include individual and corporate donations, grants, and revenue from events including our annual Great Chefs Event.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Financial Statements

The accompanying financial statements are accounted for on the accrual method of accounting in accordance with generally accepted accounting principles in the United States of America.

Basis of Presentation

The Organization reports contributions as unrestricted, temporarily restricted, or permanently restricted support depending upon the existence and/or nature of any donor stipulations that limits its use. Accordingly, net assets and changes therein are classified and reported as follows:

<u>Unrestricted Net Assets</u> – Net assets not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the board of directors.

<u>Temporarily Restricted Net Assets</u> – Temporarily restricted net assets represent net assets subject to donor-imposed stipulations that will be met by actions of the Organization and/or the passage of time. When the stipulated time restriction ends or the purpose of the restriction is accomplished, temporarily restricted assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

<u>Permanently Restricted Net Assets</u> – These are net assets subject to donor-imposed stipulations that are required to be maintained permanently by the Organization. Generally, the donors of these assets permit the Organization to use all or part of the income earned on any related investment for general or specific purposes. There are no permanently restricted net assets at year-end.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Organization considers all highly liquid investments in traditional bank accounts, money market funds, and certificates of deposit with a maturity of three months or less when purchased to be cash equivalents. At times, cash in bank may exceed FDIC insurable limits.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Grants and Contributions Receivable

The Organization records grants and contributions receivable at the estimated present value of future cash flows, net of allowances, to include net realizable value based on management's analysis of specific grants. The Organization provides an allowance for bad debts using the allowance method, which is based on management judgment considering historical information. When all collection efforts have been exhausted, the accounts are written off against the related allowance. At August 31, 2017, the allowance for uncollectible accounts amount was not warranted.

Equipment and Depreciation

Equipment with an estimated useful life in excess of one year and in excess of \$2,500 is capitalized at cost if purchased and at fair market value if donated. The cost of equipment is depreciated over the estimated useful lives of the assets. Depreciation is computed on the straight-line method.

The useful lives of property and equipment for purposes of computing depreciation are:

Furniture and Equipment	3 to 10 Years
Vehicles	5 Years
Leasehold Improvement	3 Years

Contributions

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire (that is, when a stipulated time restriction ends or a purpose restriction is accomplished) within the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending upon the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as Net Assets Released from Restrictions.

Functional Allocation of Expenses

The costs of providing the program and other activities have been summarized on a functional basis in the statements of activities and functional expenses. Accordingly, certain costs have been allocated among the program and supporting services benefited.

Income Taxes

The Organization is recognized as an organization exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. The Organization follows the income tax standard for uncertain tax positions. This standard had no impact on the Organization's financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes (Continued)

The Organization's income tax returns are subject to review and examination by federal and state authorities. The Organization is not aware of any activities that would jeopardize its tax-exempt status.

Subsequent Events

In preparing these financial statements, the Organization has evaluated events and transactions for potential recognition or disclosure through January 18, 2018, the date the financial statements were available to be issued.
